

# ECC Monthly Safety Tip

January 2026

New Year, New Projects, Same Risks

Team Members:

**Cameron Palmer, Chemical Project Designer, IMEG**  
**Savannah Snell, Digital Innovation Manager, IMS-DTS**

# New Year, New Projects, Same Risks

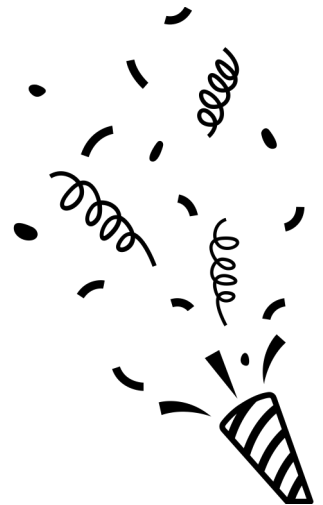

## What a New Year Brings:

- New crews on site
- New engineers on drawings
- New subs learning the plant
- New schedules under pressure
- New equipment being started up
- Holiday time off catch up

## What that creates:

- People who don't know the hazards yet
- Drawings that don't match the field
- Assumptions instead of verifications
- Shortcuts to "get going"
- Sloppy or rushed work

# One Incident = Everyone Loses

## Business Development

- Client Trust
- Reputation
- Future Work

## Contractors

- Work Stoppage
- OSHA
- Lost Productivity

## Engineers

- Design Scrutiny
- Rework
- Liability
